NEXEDGE™

Autotel
Digital Race Radio

Complete 1 car 6 pit Radio Team system

Clearer Speech.

Consistent Digital voice quality and volume.

Secure Communications.

Digital encryption prevents eaves dropping.

Less interference from other users.

Other teams no longer bleed over your radio system.

Better noise cancelling.

Engine and car noise is almost eradicated.

Full Digital, Full Analogue or mixed Analogue & digital modes.

The best mode can be selected for every application.

Increased Range.

The use of a repeater is not always necessary to give full track coverage.

NX9000 Single Seater System

NX9200 GT Saloon car system

NX9000+ radio unit for 12 volt operation
